Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:

The instant application is deemed to be directed to a non-obvious improvement over the invention patented in Pat. No. 2,810,345. The improvements are the impeller assembly has a suction port, and the impeller assembly can be selectively tilted between first and second positions, wherein the suction port is aligned with a first inlet while a second inlet is blocked when the impeller assembly is in the first position and vice versa. In another embodiment, the motor-pump unit comprising a spherical magnetic gap between a stator and a spherical armature, the armature being supported by a ball in the center and a bearing cap so that the impeller assembly can be tilted between first and second positions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Prior Art

The prior art made of record but not relied upon is considered pertinent to applicant's disclosure and consists of 2 patents.

Granet (4,177,018) and Laing et al. (4,874,300) are cited to show a pump having selectable inlets and a pump having spherical motor, respectively.
